

## Solutions

by Foam

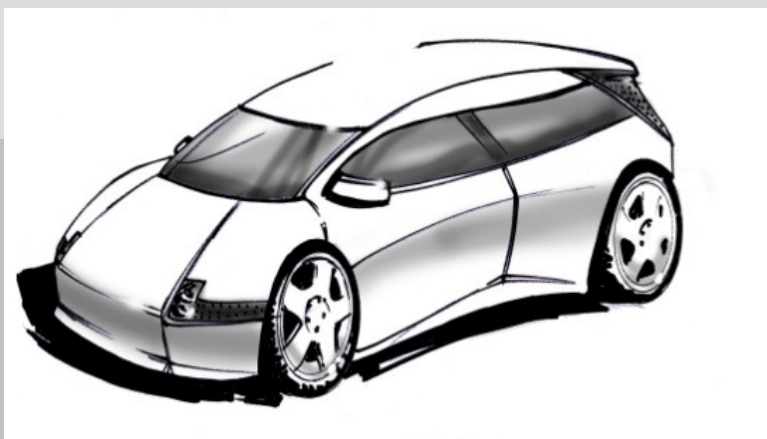

## Areas of application

interior

automotive

**INDUCON®**

## INDUCON® as interior: sound absorption for interior

INDUCON® is used for noise reduction in vehicle interiors due to its very good acoustic effectiveness and excellent further processing properties.

### Products used

INDUCON® compressed foam:  
 • ester-based mixed cell:  
 INDUCON S150  
 INDUCON T-LO150 (low-emission)

### Important product characteristics

acoustically effective  
 smooth, fine-pored surface  
 controllable hardness  
 narrow thickness tolerances  
 high elasticity  
 excellent further processing properties

### Existing applications

sound absorption of electric motors in vehicle interior:  
 • lumbar support pump
