## Quality management

In addition to the important role played by our employees, another key ingredient of our success is the quality of our products. We want our customers to be excited about our products and solutions. To achieve this, we offer intensive support, critically examine the requirements of our customers and generate new ideas.

In addition, Mayser strives for continuous improvement of quality – both in production and in development. In this way, we can ensure that all products, systems and solutions fulfil the relevant quality standards and comply with the applicable standards and directives. This is also backed up by our certifications.

We are certified by **TÜV SÜD Management Service GmbH** for the areas of

- the development, construction and sale of safety technology products and electronic monitoring devices in accordance with **ISO 9001** and **ISO 14001**
- the development and construction of anti-pinch protection systems and seat occupancy detectors – and their components – for the automotive industry in accordance with **IATF 16949**
